ABOUT US

With a vision to improve the sustainability and anticipating market trends and future environmental regulations, Hi Tech Group a 38 year old manufacturer of masterbatches, resins and films has developed a new range of renewable and compostable biobased biopolymers: Our bio polymers are produced from Corn Starch in the agriculture rich region of Punjab, India and available in 45 countries globally.

Hi Tech Group's commitment towards sustainability is oriented to reduce the greenhouse gas impact, minimize the dependence on fossil oil derivatives, promote the use of renewable energies and to reduce the plastic waste in the environment.
